460 GTS

SAXDOR

SIMRAD

MORE FREEDOM, GREATER THRILL

The Saxdor 460 GTS introduces a more exhilarating side of our flagship series, pairing the proven capability and refinement of the 460 with the freedom of a walkaround layout, open social spaces designed to transform and a more engaging driving experience.

The walkaround layout makes moving around the boat easy and secure, while fold-down terraces and flexible protection around the cockpit add versatility to the deck. A refined helm completes a more social and dynamic take on the 460, with performance to match its more exhilarating character

AT THE HELM

A sculpted, low-profile dashboard keeps the view ahead open, with up to three 16-inch displays, intuitive controls and integrated details forming one clean, unified helm.

Three newly designed helm seats add stronger lateral support, improved ergonomics and 360-degree rotation for greater comfort and flexibility.

Together with the twin-stepped V-hull, the setup delivers a smooth, stable ride and an engaging experience at speeds of up to 55 knots.

ONE CONTINUOUS SPACE

The walkaround layout creates an easy flow from aft to bow, keeping movement around the boat easy and secure.

Wide side decks connect the different areas, while the helm's raised starboard-side passage makes stepping onboard easy.

Signature fold-down terraces expand the social space out toward the water, bringing even more room to a layout designed for moving, gathering and spending time outside.

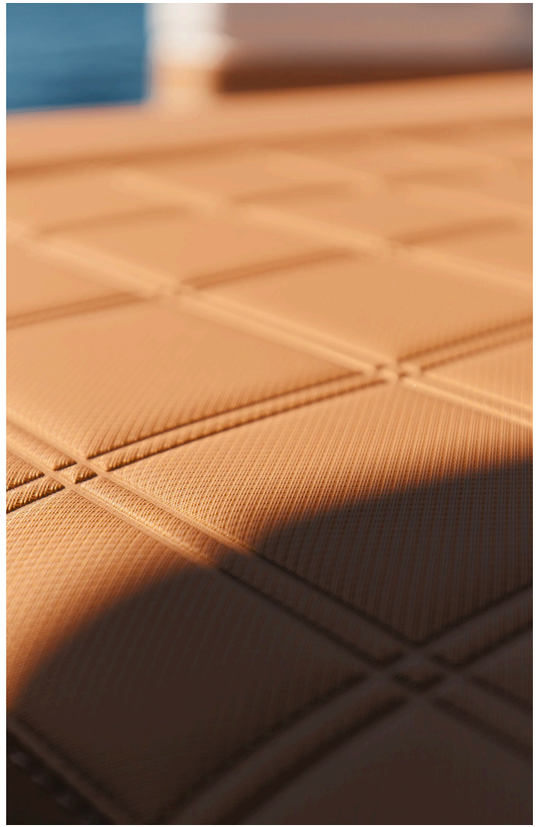

WIDER AT ANCHOR

With the side terraces folded down, the deck opens out toward the water and creates more room to gather and relax.

Behind the helm, the second-row sofa raises from the dining arrangement into an elevated, forward-facing seating position, adding greater comfort and a clear view ahead.

Further aft, a large sunbed offers generous space to stretch out while staying connected to the main social area and the surroundings, with easy access to the sea for swimming.

SPACE TO SETTLE IN

Below deck, the 460 GTS follows a refined, light design approach.

Soft lighting, warm wood veneers and clean, linear cabinetry define a calm, cohesive atmosphere, with a practical cabin layout suited to overnight stays and extended weekends on board.

A quiet, comfortable retreat set against the open character of the deck above.

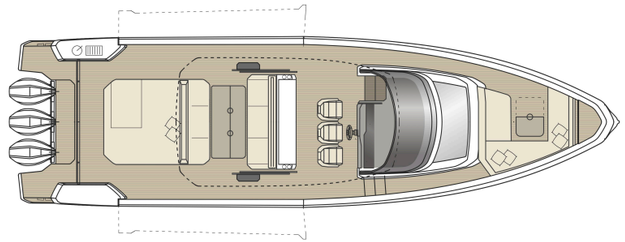

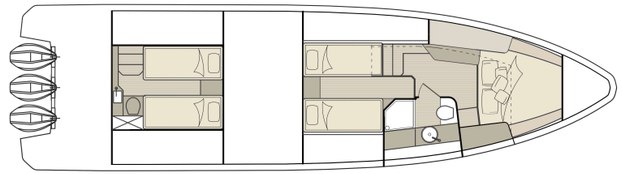

LAYOUTS & SPECS

SPECIFICATIONS

Length	14.44 m / 47 ft 5 in
Beam	4.11 m / 13 ft 6 in
Draft (excl. engines)	0.8 m / 2 ft 7 in

THE FUTURE TAKES SHAPE

Founded in 2019 by Sakari Mattila, we draw on decades of experience with Finland's leading boat brands. We entered the market with a distinct view of modern boating, bringing together agile performance and innovative use of space, designed to anticipate your changing needs on board.

The range has grown quickly, with every new model expressing a different side of the same design philosophy.

Today, Saxdor models span from the sporty 270 to the flagship 460. Each model has its own character and onboard experience, bringing genuine variety to the range. Built in Europe, every Saxdor meets the same high standards of construction, materials and finish.

Together, these qualities shape a feeling you notice the moment you step on board and want to return to after every outing.

GLOBAL NETWORK

Saxdor is present wherever boating matters most — through a network of over 200 dealer locations across more than 70 countries and territories on 5 continents.

Together with our dealer partners, we participate in more than 100 boat shows and water sports exhibitions every year, from Cannes and Düsseldorf to Miami and Singapore.

Each event is an opportunity to explore the Saxdor range on the water, discover the full lineup through our digital showroom, meet the team, and join a growing community of owners worldwide.
